

## CLIMA 2019

27.8.2018

**The 13th CLIMA World Congress, the leading international scientific congress in the field of Heating, Ventilating and Air-Conditioning (HVAC), will be held from 26 till 29 May 2019 in Bucharest, Romania.**

**The deadline for submission of CLIMA 2019 abstract papers is approaching!**

**Submit your abstracts the latest until 1 September 2018 [here](#).**

[The 13th CLIMA World Congress](#), the leading international scientific congress in the field of Heating, Ventilating and Air-Conditioning (HVAC), will be held from 26 till 29 May 2019 in Bucharest, Romania. The 2019 edition will focus on the topic “**Built environment facing climate change**”. The Congress will put into discussion the capacity of the new or existing refurbished buildings together with their technical systems, especially HVAC & R&S, to counteract in an energy efficient manner the climate changes. Therefore, the papers should focus on the following topics:

1. Advanced HVAC & R&S Technology and Indoor Environment Quality
2. High Energy Performance and Sustainable Buildings
3. Information and Communication Technologies (ICT) for the Intelligent Building Management
4. Sustainable Urbanization and Energy System Integration

Registration will open on 1 December 2018, get [here](#) some additional details about registration and fees. In a case of any additional questions, you can contact Giulia Marenghi at [gm@rehva.eu](mailto:gm@rehva.eu).
